SAFETY DATA SHEET
According to Canadian Hazardous Products Regulations (HPR) (SOR/2015/17)

SDS # : 083813
SYN-TEMP CHAIN OIL 220 M

Date of the previous version: not applicable
Revision Date: 2018-05-09
Version 1

1. IDENTIFICATION

Product identifier

Product name
SYN-TEMP CHAIN OIL 220 M

Other means of identification

Product Code(s) 083813
Number 7LP
Substance/mixture Mixture

Recommended use of the chemical and restrictions on use

Identified uses synthetic Chain lube

Uses advised against Do not use for any purpose other than the one for which it is intended.

Details of the supplier of the safety data sheet

Supplier TOTAL CANADA INC.
220, LAFLEUR
LASALLE, QUEBEC
H8R 4C9
Tel: (514) 595-7579
Fax: (514) 595-5950

E-mail Address ProductSafety@total.com

Emergency telephone number

Emergency telephone 1-800-463-3955
Company Phone Number +1 866 928 0789 (24h/24, 7d/7)
+1 215 207 0061 (24h/24, 7d/7)

2. HAZARDS IDENTIFICATION

Classification

The product is not classified as hazardous according to WHMIS

Label elements

The product is not classified as hazardous according to WHMIS

Hazard Statements

None
Unknown acute toxicity
0 % of the mixture consists of ingredient(s) of unknown toxicity

Other information
Physical-Chemical Properties
Contaminated surfaces will be extremely slippery.

Environmental properties
Should not be released into the environment.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Mixture
The product contains no substances which at their given concentration, are considered to be hazardous to health.

Additional information
Product containing mineral oil with less than 3% DMSO extract as measured by IP 346

4. FIRST AID MEASURES

First aid measures for different exposure routes

General advice
IN CASE OF SERIOUS OR PERSISTENT CONDITIONS, CALL A DOCTOR OR EMERGENCY MEDICAL CARE.

Eye contact
Rinse immediately with plenty of water and seek medical advice.

Skin contact
Remove contaminated clothing and shoes. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse.

Inhalation
Move to fresh air. Inhalation of high concentrations of vapor or aerosols may cause irritation of the upper respiratory tract.

Ingestion
Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately. If swallowed, do not induce vomiting - seek medical advice.

Most important symptoms/effects, acute and delayed

Skin contact
Not classified based on available data.

Eye contact
Not classified based on available data.

Inhalation
Not classified based on available data. Inhalation of vapors in high concentration may cause irritation of respiratory system.
SDS #: 083813

SYN-TEMP CHAIN OIL 220 M

Date of the previous version: not applicable
Revision Date: 2018-05-09
Version 1

Ingestion
Not classified based on available data. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician
Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Foam. Carbon dioxide (CO₂). ABC powder.

Unsuitable Extinguishing Media
Do not use a solid water stream as it may scatter and spread fire.

Special Hazard
Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high concentration.

Explosion Data
Sensitivity to Mechanical Impact
None.
Sensitivity to Static Discharge
None.

Special protective equipment for fire-fighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Evacuate non-essential personnel.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

General Information
Do not touch or walk through spilled material. Contaminated surfaces will be extremely slippery.

Other information
See Section 12 for additional information.

Environmental precautions

General Information
Do not allow material to contaminate ground water system. Local authorities should be advised if significant spillages cannot be contained. Try to prevent the material from entering drains or water courses. See Section 12 for additional Ecological Information.

Methods and material for containment and cleaning up

Methods for cleaning up
Dam up. Soak up with inert absorbent material. Keep in suitable, closed containers for disposal. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).
7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling

When using, do not eat, drink or smoke. For personal protection see section 8. Use only in well-ventilated areas. Do not breathe vapors or spray mist. Avoid contact with skin, eyes and clothing.

Prevention of fire and explosion

Take precautionary measures against static discharges. Ground/bond containers, tanks and transfer/receiving equipment.

Hygiene measures

Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into workwear pockets. When using, do not eat, drink or smoke. Use personal protective equipment as required. Wash hands before breaks and at the end of workday. Wash hands with water as a precaution. Avoid breathing vapors, mist or gas. Do not wash off with: Fuel. Solvent. Abrasive. Avoid extended and repeated contact with the skin as this may cause skin conditions, which may also be aggravated by minor injuries or by contact with soiled clothing. Avoid prolonged and repeated contact with the skin, especially with used or waste product.

Conditions for safe storage, including any incompatibilities

Technical measures/Storage conditions

Keep away from food, drink and animal feedingstuffs. Keep in a bunded area. Keep container tightly closed. Keep preferably in the original container. Otherwise reproduce all indication of the regulation label on the new container. Do not remove the hazard labels of the containers (even if they are empty). Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot casings or electrical contacts. Protect from frost, heat and sunlight. Protect from moisture. Keep in a bunded area. Store in original container. Keep in properly labeled containers.

Materials to Avoid

Strong oxidizing agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure limits

Mineral oil mist:

USA: OSHA (PEL) TWA 5 mg/m³, NIOSH (REL) TWA 5 mg/m³, STEL 10 mg/m³, ACGIH (TLV) TWA 5 mg/m³ (highly refined).
**Exposure controls**

**Engineering Measures**
Apply technical measures to comply with the occupational exposure limits. When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment.

**Individual protection measures, such as personal protective equipment**

**General Information**
Protective engineering solutions should be implemented and in use before personal protective equipment is considered.

**Eye/face protection**
If splashes are likely to occur, wear safety glasses with side-shields.

**Skin and body protection**
Wear suitable protective clothing. Protective shoes or boots.

**Hand Protection**
Protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.

**Respiratory protection**
If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

Reactivity
None under normal processing.

Chemical stability
Stable under recommended storage conditions.

Possibility of hazardous reactions
None under normal processing.

Conditions to avoid
Heat (temperatures above flash point), sparks, ignition points, flames, static electricity. Take precautionary measures against static discharges. Strong oxidizing agents.

Incompatible materials
Strong oxidizing agents.

Hazardous Decomposition Products
Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Skin contact
Not classified based on available data.

Eye contact
Not classified based on available data.

Inhalation
Not classified based on available data. Inhalation of vapors in high concentration may
cause irritation of respiratory system.

**Ingestion**

Not classified based on available data. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Acute toxicity - Product Information**

**Oral**

Not classified based on available data

0 % of the mixture consists of ingredient(s) of unknown acute oral toxicity

**Dermal**

Not classified based on available data

0 % of the mixture consists of ingredient(s) of unknown acute dermal toxicity

**Inhalation**

Not classified based on available data

19.74 % of the mixture consists of ingredient(s) of unknown acute inhalation toxicity

**Acute toxicity - Component Information**

**Skin corrosion/irritation**

Not classified based on available data.

**Serious eye damage/eye irritation**

Not classified based on available data.

**Respiratory or skin sensitization**

Not classified based on available data.

**Mutagenicity**

Not classified based on available data.

**Germ cell mutagenicity**

Not classified based on available data.

**Carcinogenicity**

This product is not classified carcinogenic.

**Reproductive toxicity**

Not classified based on available data.

**Target Organ Effects (STOT)**

None known.

**STOT - single exposure**

Not classified based on available data.

**STOT - repeated exposure**

Not classified based on available data.

**Aspiration hazard**

Not classified based on available data.

12. **ECOLOGICAL INFORMATION**

**Ecotoxicity**

Not classified based on available data

**Acute aquatic toxicity - Product Information**

No information available

**Acute aquatic toxicity - Component Information**

Does not contain hazardous substances above regulatory disclosure thresholds
Chronic aquatic toxicity - Product Information

No information available

Chronic aquatic toxicity - Component Information

Does not contain hazardous substances above regulatory disclosure thresholds

Effects on terrestrial organisms

No information available.

Persistence and degradability

No information available

Bioaccumulative potential

Product Information

No information available.

logPow

No information available

Component Information

No information available.

Mobility

Soil

Given its physical and chemical characteristics, the product generally shows low soil mobility

Air

Loss by evaporation is limited

Water

The product is insoluble and floats on water The product is insoluble and sinks in water

Other adverse effects

General Information

No information available

13. DISPOSAL CONSIDERATIONS

Waste treatment

Waste from residues/unused products

Dispose of in accordance with all applicable national environmental laws and regulations. Other Regulatory Status: No Canadian federal standard; however, for general discharge guidance, federal installations limited to 15 mg/L for total oil and grease. Provincial criteria are likely and should be requested when notifying provincial authorities.

Contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or
disposal.

Revision Date: 2018-05-09
Revision Note: Initial Release

Abbreviations, acronyms
ACGIH = American Conference of Governmental Industrial Hygienists
bw = body weight
bw/day = body weight/day
EC x = Effect Concentration associated with x% response
GLP = Good Laboratory Practice
IARC = International Agency for Research of Cancer
LC50 = 50% Lethal concentration - Concentration of a chemical in air or a chemical in water which causes the death of 50% (one half) of a group of test animals
LD50 = 50% Lethal Dose - Chemical amount, given at once, which causes the death of 50% (one half) of a group of test animals
LL = Lethal Loading
NIOSH = National Institute of Occupational Safety and Health
NOAEL = No Observed Adverse Effect Level
NOEC = No Observed Effect Concentration
NOEL = No Observed Effect Level
OECD = Organization for Economic Co-operation and Development
OSHA = Occupational Safety and Health Administration
UVCB = Substance of unknown or Variable composition, Complex reaction products or Biological material
NTP = National Toxicology Program

Section 8
TWA - Time Weight Average
STEL - Short Term Exposure Limits

+ Sensitizer
C: Carcinogen
R: Toxic to reproduction

Ceiling: Ceiling Limit Value

This safety data sheet serves to complete but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk. The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfill his obligations. This list is not to be considered complete and exhaustive. It is the user's responsibility to ensure that he is subject to no other obligations than those mentioned.
